

STUDIO
B
MINIATURES

TO: Those who delight in tiny things.

Studio B is a new name in miniatures. If you are a collector or a decorator of a doll's house you may be interested in what we have. We are pleased to offer a selection of fine Windsor chairs with delicate turnings. The comb back is a copy of a museum piece and is large enough for a tired doll to relax in. Our low back Windsor is a little gem with its 15 spindles! All our furniture is scaled 1" to the foot. It is made of maple or basswood, handrubbed and oiled. The Boston rocker is a copy of an old chair and the decorations are painted freehand. The tin accessories are reproductions of old pieces and yes the candles are hand dipped, even tilt in hot weather!

All these pieces are made by members of my family. We have been making and enjoying miniatures for many years. Now we offer a limited number for sale. We hope there is something here to tickle your fancy.

Pictured are just a few of our pieces. Please see the reverse side for a complete listing.

Also available are tiny detailed, hand painted copies of early American paintings. Please send a self addressed envelope for descriptions and price list.

Please allow three weeks for delivery. Delivery by UPS.
